

HKDSE Oral Discussion Example 2

HKDSE ENGLISH ORAL DISCUSSION TOPIC 2

Two hundred Primary 6 students are going to visit your school. They will join your secondary school next year as Form 1 students. Your group is planning a tour of the school for them.

You may want to talk about:

- places they should visit in the school
- people they should meet
- information they may need about your school
- anything else you think is important

DISCUSSION EXAMPLE

Student 1: As we prepare for the visit of the two hundred Primary 6 students, I think it's important to create an engaging and informative tour of our school. We should definitely include key areas like the science laboratories and the library, as these are crucial for their academic journey.

Student 2: I completely agree. The science labs will showcase our advanced facilities, which can spark their interest in science subjects. Additionally, the library is a treasure trove of resources. We might want to highlight our digital catalogue and study areas, as these are important for their research and learning.

Student 3: Precisely! It's also important to introduce them to some of our teachers. Meeting the head of the science department could inspire them to explore their interests further. Perhaps we could arrange for the principal to greet them as well, as it would give them a sense of the school's leadership and values.

Student 4: That's a brilliant idea. Establishing a connection with the principal will help them feel more welcomed. Furthermore, we should include student ambassadors in the tour. These students can share their personal experiences and answer any questions the Primary 6 students might have.

Student 1: Yes, peer interaction can be very comforting for them. We should also consider what information they might find useful. A handout detailing our school's extracurricular activities, clubs, and sports teams would be beneficial. This way, they can see the diverse opportunities available to them.

Student 2: Absolutely! It would also be wise to include information about our school's values and mission. Perhaps in a brief presentation in the school hall we could explain to them what makes our school unique and special.

Student 3: Agreed. We could also incorporate some fun activities or icebreakers along the way to make the experience more interactive. Engaging them in a small group discussion or a quiz about the school could foster excitement.

Student 4: Great suggestion! Overall, I believe that by thoughtfully planning this tour, we can create a welcoming atmosphere that not only informs but also excites the Primary 6 students about joining our secondary school next year.

Student 1: I couldn't agree more. I'm confident that the visit will be a memorable and informative experience for them!
